

Tech Movie Journal

A personal collection of tech-related films I've explored

[About me](#)[Watched & Reviewed](#)[On My Radar](#)[Contact](#)

Hi There!

Hey there! 🙌 I'm a tech enthusiast and movie lover who enjoys exploring how technology is portrayed on screen — from AI gone rogue to underdog coders changing the world. Whether it's a gripping documentary or a thrilling hacker film, I love how these stories make us think, dream, and sometimes laugh nervously at how real it all feels.

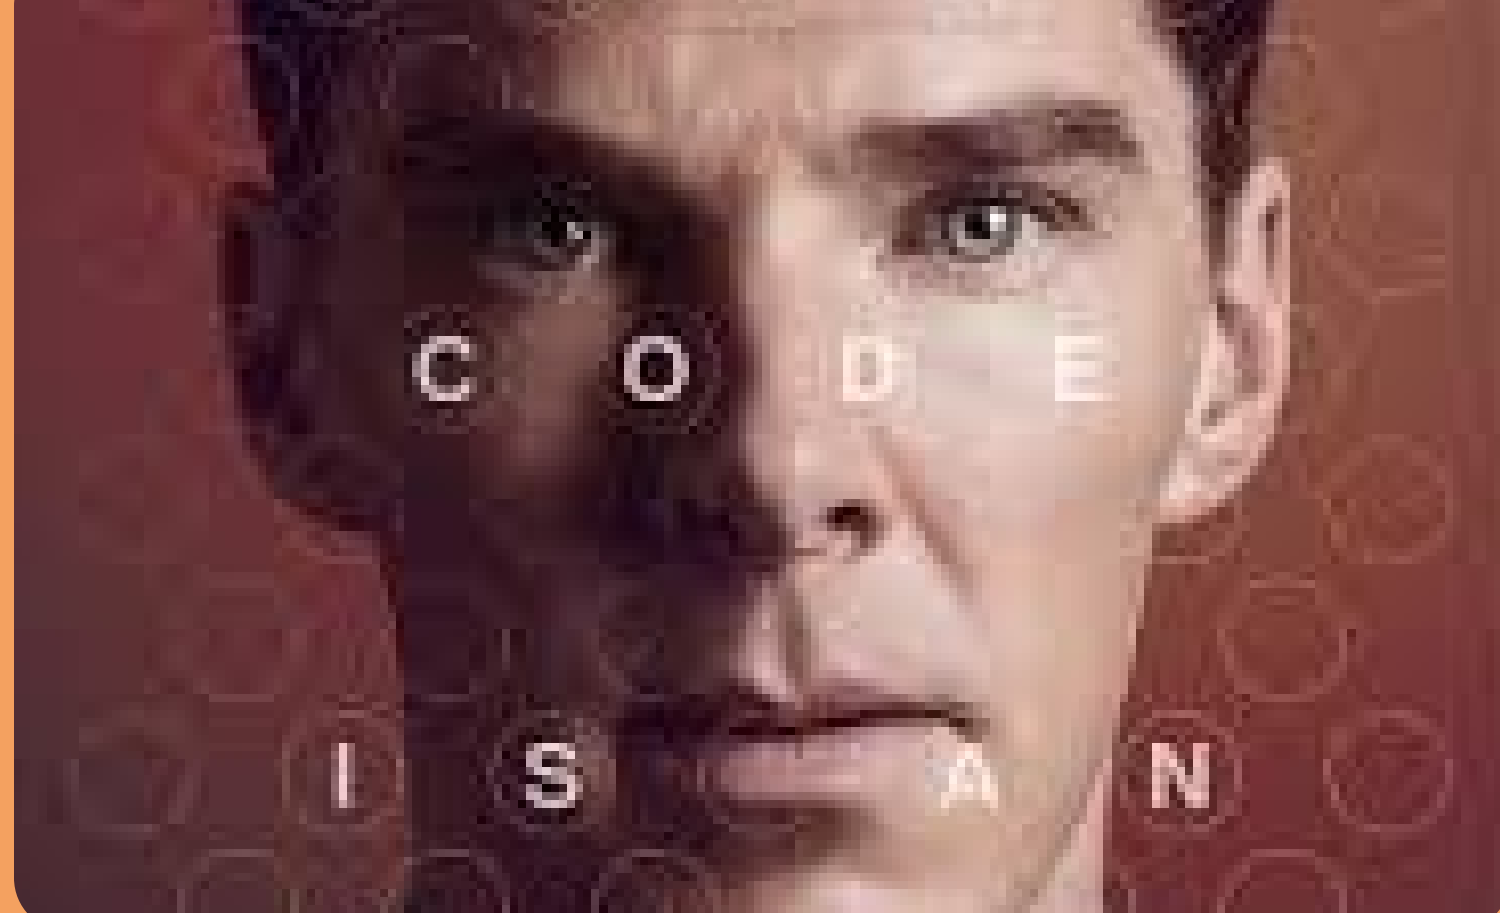

"Give a man a program, and he'll be frustrated for a day. Teach a man to program, and he'll be frustrated for a lifetime"
— Me
